

Uday Kumar G

1ms22ai067@msrit.edu | (+91) 9663487366 | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Skills

Languages: Python, C++, Basics (C, Java)
Frameworks: TensorFlow, Keras, PyTorch
Tools: Git, GitHub, Ubuntu Terminal, VS Code, Flutter
Soft Skills: Leadership, Problem-Solving, Communication

Fundamentals of AI: Basic concepts of AI and its applications
ML: Supervised/unsupervised learning, regression, classification
Currently studying DSA: Data Structures and Algorithms

Education

B.E. Artificial Intelligence and Machine Learning, Ramaiah Institute of Technology

CGPA: 8.59

Dec 2022 - Present

XII (STATE), Sree Vijaya PU College

Percentage: 92.67%

Completed: May 2022

Experience

1st Runner-up, Unisys Innovation Program (UIP15-2024)

Developed a garbage collection system using Computer Vision and IoT, reducing manual intervention by 40%.

Participant, Dark Patterns Buster Hackathon (DPHB-2023)

Built a tool to detect deceptive design patterns in web apps, identifying 50+ instances.

[GitHub Repo](#)

Participant, e-Yantra Robotics Competition (eYRC 2023-2024)

Engineered a robotic solution for warehouse management, improving efficiency by 40%.

[GitHub Repo: eyrc23-GG-3188](#)

Projects

Project EcoVista

Developed an advanced waste segregation and litter detection system integrating multiple technologies. Used **OpenCV** for image classification to detect different types of waste, **IoT sensors** to monitor bin fill levels, and a **Flutter-based mobile application** for real-time updates and management. The project combined computer vision, IoT, and app development to streamline urban waste management, reducing operational inefficiencies by 30%.

ToDoList App: Flutter & DSA Integration

Developed a task management app using arrays and linked lists for efficient task prioritization, achieving 99% completion rate with 50+ testers.

Achievements

- **Unisys Innovation Program (Year 15):** Achieved 2nd place, outperforming 800 participants.
- **Patent:** Successfully filed a patent, showcasing innovative problem-solving and technical expertise.
- **BIT Ambition'24 Hackathon:** Special Prize among 100+ participants for developing a solution in 24 hours.
- **Protatva-24 Hackathon:** 1st Prize for leading a 5-member team, earning 200+ positive reviews.
- **Hackathon Wins:** 5+ wins in ML/IoT, competing with 50+ teams.

Hobbies

Playing Chess: Enhances strategic thinking and problem-solving.

Coding Projects: Exploring new technologies through personal projects.

Hackathon Participation: Enjoys solving challenges in competitive environments.
